

To access the Easypay App on your phone, you need to set up a PIN number.

1. Enter your chosen PIN number.
2. Confirm it by entering the same number again.

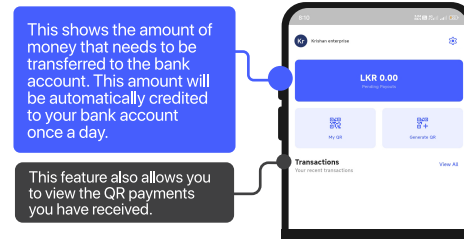

For additional security, if your phone supports fingerprint or facial recognition for unlocking, make sure to activate this feature.

Registration details successfully submitted!. Your registration will be confirmed soon!

Once your registration is complete, you will see this screen!

Two Methods for QR Payments:

• My QR

Get a QR code for your business. By printing this code and placing it near the cash counter, customers can scan it to make payments quickly.

• Generate QR

This method allows you to generate a QR code for a specific amount. When scanned, the customer can pay that exact amount.

You can also send both types of payments to others. This means that even if the person isn't with you, you can still make the payment by sending them the QR code to scan

Easypay

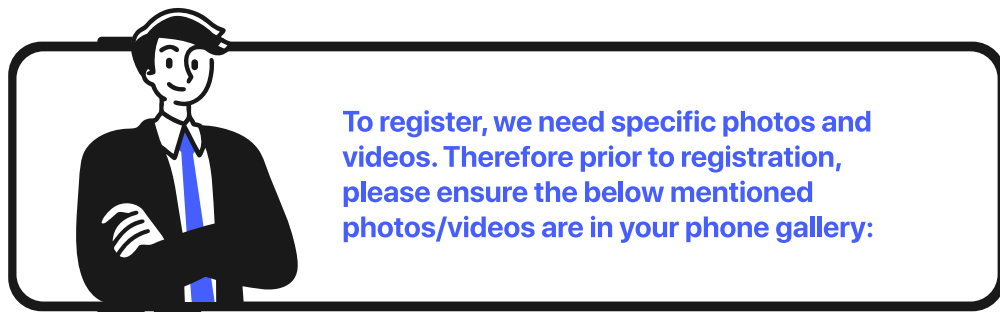

POWERED BY

Merchant Guide Book

Scan the QR and follow the steps in the walkthrough video to register.

● Your National Identity Card (NIC) - Both sides

(*Alternatively, you may provide your driver's license or passport images.)

- Registration number of the business
- Registration certificate of the business
- A photo of your business

(*If your business is unregistered, only a photograph of your business is sufficient)

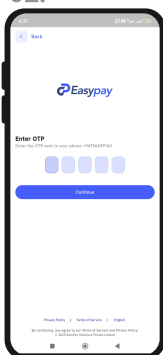

- You need to provide a photo of your bank passbook, a letter from the bank confirming you own the account, or a money transfer receipt that shows your identity linked to the account from which you want to withdraw funds.

01.

02.
